MIAMI-DADE COUNTY BOARD OF COUNTY COMMISSIONERS

Email Sample:

I am writing to you with great urgency regarding the proposed site for the construction of an incinerator near the City of Miramar. There is great concern among residents regarding the negative impact this will have on our health and well-being, as well as the environment.

As a concerned member of the community, I implore you to reconsider building an incinerator at the Opa-Locka West Airport site. Placing such a facility less than a mile away from residential neighborhoods and schools poses a serious threat to the health and safety of over a quarter million people and many endangered species living in the Everglades. The release of toxins into the air and water could lead to a host of health issues, including cancer, allergies, and respiratory problems, which our community cannot afford to endure.

Fortunately, there is a viable alternative that would mitigate these risks and minimize harm to both residents and the environment. The Okeechobee Road/Medley site presents a better option for the construction of the incinerator. Not only is this site already zoned for such use, but it is also in an industrialized area and would have minimal impact on residents and would not pose a threat to the Everglades and its natural resources. Even the cost incurred by the County to purchase the site will be donated back to help the community you serve.

I urge you to prioritize the health and well-being of our community by selecting the Okeechobee Road/Medley site for the incinerator project. By doing so, you will demonstrate your commitment to serving the best interests of the people and protecting the environment for future generations.

Thank you for considering this urgent matter. I trust that you will do the right thing and select the right site.
